Ladies waited upon by Miss Caroline D Foster at the above place

The following certificate from Dr John C Warren of Boston was given 16 years since but will answer

BOSTON January 7, 1835

Having had occasion to observe that some afflicted with Hernia have suffered much from the want of a skillful workman to accommodate Trusses to the peculiarities of their cases I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Heath After some months of observation of his work I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments and in addition in accommodating them to the variety of cases which occur I feel called upon to recommend him to my professional brethren and to the public as a person well fitted to supply their wants in regard to those important articles

JOHN C WARREN M D Boston

CERTIFICATE The following certificate is from Professor Stuart, of Andover Theological Seminary

The undersigned having occasion to employ Mr J Frederick Foster of Boston in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with this and similar complaints Mr Foster's success in the manufacture and adapting them to the body, ease and comfort to the wearer, surpass (as far as our experience goes,) any other manufacture of the article

The numerous testimonials which he has received together with the recommendations of that of the urgeon Dr J C Warren as a sufficient guaranty for all who may favor Mr F, that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable pension.

WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

A CURE FOR CONSUMPTION COUGHS, COLDS ASTHMA, BRONCHITES, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS.

THE Proprietor has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly that the taste of the Oil which is so nauseous to persons generally, is entirely overcome and it can be taken by the most delicate females with pleasure And as regards the benefit of this article over the clear oil the following case by Prof Stone is sufficient to convince the most skeptical The young lady was twenty-four years of age

Her disease was one of unmixed phthisic, which had been expected to terminate in the course of a few months, fatally The upper part of both her lungs were filled with tubercles, and in some places were beginning to soften The case was evidently a bad one The treatment of Cod Liver Oil was at first used, but without marked improvement The Phosphate of Lime was then administered with the oil, and the result, as in the case of many others was soon apparent The patient was rapidly getting well

CAUTION —On account of the great reputation of this Compound for all Lung complaints, the subscriber would caution the afflicted against using any except that manufactured by him, as he has the only receipt in the United States for combining the pure Oil with lime in a proper manner Therefore as you value your health, purchase none except that manufactured by

Bank Note Protection.

A new plan to prevent Fraud by the Alteration of Bank Notes from low to higher denominations.

The Notes are divided into two classes

CLASS FIRST embraces the denominations of *one two three four* and *five dollars* These are distinguished by strips at the *right* ends of the notes, composed of *geometric lathe work* and running towards the centre the number of strips corresponding with the amounts of the notes Thus a one strip for one dollar two strips for two dollars and so on, and upon the centre of these strips a large figure readily seen, designates the denomination of each note In this class of notes, there are no borders on the *left* ends—which are occupied by vignettes and other work The President's name will be placed under and near the *right* end strip work on all notes of this class, and it out of the Register or some other name above it thus protecting the strip work from alteration—no place being left for adding another strip either above or below the signatures

CLASS SECOND, embraces the denominations of *ten, twenty fifty, one hundred* and *five hundred dollars* On these the whole arrangement is reversed The strips of lathe work (different from those used upon the other class of notes) commence at the *left* ends and run towards the centre the vignettes and other work being upon the *right* On this class the Cashier's name is placed under the strip work, and that of the Register directly over it their names being separated by one strip on a ten dollar note, by two on a twenty three on a fifty four on a hundred and by five strips upon a five hundred dollar note *presenting a perfect contrast between the two classes of notes*

Any person acquainted with the plan could not be deceived by any alteration of any one of these notes in either class, from one denomination to another The plan is a simple one and is comprehended almost at a glance, from an examination of the notes, for although so many lines are required to describe it in words the pictorial description is very short, and easily understood and remembered The inventor JAMES ATWATER, Esq , of New Haven, Conn has secured his invention by caveat entered at the Patent Office at Washington and has made an arrangement with DANFORTH WRIGHT & CO , exclusively, for its use upon Bank Notes

Besides the protection against the *alteration* of the denominations of Bank Notes afforded to banks and the public by this plan a very great security against *counterfeiting* is also afforded by the free use of the *geometric lathe work* of which the borders are composed, and which cannot be successfully imitated either with any other *machine* or with the *graver*

IMPORTANT TO ALL

WHO USE!

Steam as a Motive Power,

AND DESIRE

Safety and Great Economy.

AN opportunity is now offered to all whom it may concern to secure the exclusive right of manufacturing using and vending in States and Counties,

IRVING'S

Circulating Safety Steam Boiler,

For Stationary Engines Locomotives Marine Engines on River Lake and Ocean Steamers, &c —The advantages of this Boiler over all others now in use are

1st—ENTIRE SAFETY FROM EXPLOSION being no more liable to explode than an open cauldron

2—Less than ONE THIRD the amount of fuel is required to generate the steam obtained by other Boilers of the same power

3—The cost of construction is reduced ONE HALF

4—They occupy but ONE THIRD the space of other boilers and may be applied to any engine now in use

5—The expense of Furnace Grates will be incalculably lessened by the small amount of fuel required and the manner of using it

The Company GUARANTEE the realization of the above advantages Their conclusions are based on PRACTICAL RESULTS many of these Boilers being now in use in and about this city The inventor has but just succeeded after years of application in bringing this valuable invention before the public It stands alone and independent in its merits and if it has the qualities claimed which are undeniable the public will at once acknowledge its superiority over any other motive power

WEDNESDAY, MAY 25, 1863.

A few Remarks for the People's Press

The People's Press,' published at Skowhegan gets off what it probably deems a very smart article, in reference to our disapproval of the act of the whig governor of Maine, nominating for sheriff this county a democratic sheriff of one of the stripe of Polk the place of a democrat of another stripe. The writer in the Press makes no argument whatever in the way of a justification or even an explanation of the conduct of the governor Following a long train of remarks on the action of the council in passing through the beaten track of others having the advantage of commenting upon the development of affairs, it brings a filament of light to illuminate the subject, which appears quite as much in the dark as before it would enlighten

It is for us to consider the matter as the Press had treated it legitimately by any side intentions and oblique de- the question is put to us why we need tether the sheriff of this county, if he a loco, is a wild cat or a "wool It is not easy to answer that question no reason why we should care We ig, and as such we have no choice as particular stripe of the other party and we should not turn our hand over difference in the stripe The writer in certainly presses pretty close, not but upon the essential subject matter

Now, our ground is that we do not are no choice We see no reason ce as between the sections of the loco deem them both adverse to the We think it would be out of to express any decided preference as now understands us we hope so for point is concerned. This was our original position It is still our position It was a wandering jump, or a premeditated that the writer in the Press represented forently We now wish to press this very ion home upon the writer in the People's reference to the governor Why care why ought he to care, whether riff of Penobscot is a wild cat, or a end so long as he is and must be the present circumstances, a loco? Please question, as it is one of your own rely is not a question for us to the cause of our complaint was answer You have hit the of the difficulty but mistook the par successfully answer that ques Governor Crosby as a whig and shall he could consistently and properly a choice in the case and could make once public and prominent, then you nothing in the way of explanation, haps, of excuse possibly of vindica nomination of sheriff *but not till then* is before you now let us see you it The ground is of your own choos ing begun in the matter, you can escape

The foregoing we have despatched all that essential to the subject at issue and a line or two to the personal insinuations, the scrapings of which the writer in the Press has up and thrown at us We have seen nastiness before but we should not have to have seen it in the People's Press, ed to come into our office in he friends up and attempted to tempt employment an apprentice boy, in of making a few shillings more profit than he could from a regular jour Since he did it at we should not be at seeing, anything in the columns paper A fact like that reveals the in the man and brings on his real qualities qualities is capable of any mean-

fully insinuates by the mechan of its types that we have no because we questioned the of the nomination of Sheriff for this all, we are ready to be dissected and dried on that point. We once knew son who attempted to destroy a neighbor by human and living about him, but the at most aid of the neighbor being could do it as the slanderer who have one conviction deep down in of our heart which is of that character whatever it may become of reputation slanderer may pervert, poison, repute he cannot and thousands of them place as man on character or man in rightest degree It is better to rely on acter than on reputation Does the Press deem a mark of commendable man when one sees the standard bearer of his deflected from the line of political consistency what seems to him to be so to keep and say nothing or even to approve with son and have the party committed to unsound and dissatisfactory issues Is that the manhood desired of those on whom the rights of a joint share in shaping positions and public sentiment not for a year or along series of years If so then no special credit in that particular

The Press states a low slander that has sometimes repeated by political opponents that the fact of our publishing the laws United States had an influence on our course This we flatly and boldly deny The ballance the Press to do its worst. Never was an appointment made which left a single obligation or understanding beyond its simple business relations of faithfulness in performing the publication of the laws. We will mention one fact in justification of the strictness of Mr. Webster's integrity The law authorizing the publication of the laws fixed the price at one dollar a page. But it happened that in the pamphlet publication the size of the page was greatly increased which of course was equivalent to a great reduction of the price, but Mr Webster though strongly urged by persons at Washington would not consent to any change from the strict letter of the law,

We have not, nor do we now, nor shall we very soon, even to appease or please our defamers and calumniators, counsel resistance to the laws or any law of the land without at the same time advising the resistants to bear meekly the penalties for so doing. We are unconscious of any change of opinion in this regard. We know of no motive to change Bad as some laws are we believe the community as a whole is better off, in every respect, by obedience to the laws, including the Fugitive Slave law, than by a disregard of law Law is the great security of the community, in life, liberty and property If in thus regarding the great body of the law, as a unit, is sin and proves us a traitor to the right, then make the most of the treason

We come now to another insinuation meanly and sneakingly made, that we experienced disappointment in not receiving an appointment as Commissioner of the Reform School. This is a sheer fabrication We never desired, never sought that office nor has a day passed when we would have accepted the office had it been voluntarily offered to us by the Governor and an assurance of confirmation given us by the Council But we are now only repeating what the writer in the People's Press very well understood before he dealt out his drizzle from the dripping pan of the loco press in this city and which even that press had the manliness to correct

If we were capable of being governed by a motive so mean and unworthy, we should most intensely desire to shut up shop and to retire to the narrowest recess of the wild woods of Maine for we should feel that we had no protection from the contempt of good men and no shield against the villainous calumnies and nastyness (we write the word deliberately) insinuations of such a miserable scribbler as this creature in the People's Press.

There is another insinuation in the article to which we will briefly allude, for the purpose of pronouncing it infamously false It is that Governor Hubbard received assistance from us The People's Press knows better It meant to misrepresent it meant to falsify It stooped to meanness in accommodation to a reckless and unprincipled man in this city, and in stooping it bowed down in the filth of political defamation and slander, and upon its own head be the consequences

We might very easily carry the war into Africa and show up the character of the little fellow who ostensibly conducts the Press and of the men by whose jugglery he is managed, but the game is not worth the ammunition, and it is not in our line to harm any helpless creature but rather in pity to let him escape, with uncle Toby's remark to the fly, 'Get thee gone poor devil, there is room enough in the world for both me and thee'

We have labored too long and too devotedly in the whig cause to be told at this late day, by a stripling in the ranks, that its time honored principles demand that those in power shall have the right to change the whole scope and tendency of those principles at their pleasure No Our whigism reaches us no such thing It is because we regard the health, strength and influence of the whig party, and desire the success of whig principles, that we are unwilling to have them compromised or traded off by even a show of preference for one wing of democracy over the other Whig principles according to our understanding of them, neither allow nor permit the Executive power to take the bits in its teeth and race off on its own account, but that it should be limited and restrained within proper and reasonable bounds and be held strictly accountable. If we are wrong in this, we need to be taught anew the elements of politics

Perhaps we have occupied too much space with this subject, but we thought it best to shovel out all the paths while we were about it and let the People's Press understand that we shall not allow it with impunity to become the cat's paw of any evil disposed person, and beyond this mercifully to keep its true character behind the veil

RAILROAD LIABILITY It is stated that the surviving friends of a physician recently killed by the Norwalk disaster, have commenced a suit against the railroad company, for $20 000 and another suit is made by the friends of one of the Boston passengers, for $100 000 Under the New York statute the damages recoverable against the New York and New Haven railroad company, for those who were killed at Norwalk, would amount to $220 000, and the damages for injuries to persons, and destruction of property to $50,000 or $60,000 more Under the statute of Connecticut, the damages for the dead might run up to $400,000 or $500 000

☞ The mechanical genius of Mr George Savage of this city has been exercised recently in the invention of a new cheap and desirable mode of hanging garden and other gates by a flange and chains instead of hinges.

Mr Savage has also made a great improvement in the manner of framing buildings by the use of clamps and keys, causing a great saving in lumber and labor These inventions will soon be patented application having been made for this purpose, when they will be offered to the public.

☞ The attempt to pay the incumbrances upon the estate of Daniel Webster by subscription in order that it may be preserved in his family according to his last wishes, appears to be finally given up as demands against it continually accumulate

☞ We give our thanks to Hon Israel Washburn, Jr, for a copy of the Abstract of the Seventh Census, published by order of Congress

Movements both in stock and money matters during the past week have been less interesting than usual. A full supply of capital for ordinary business purposes is furnished at the Banks and for street discount the rates rule but moderately above legal interest with negotiations of but limited amount The quotation are fixed at 7, 8 and 9 per cent according to the character of loans but there is in fact no considerable call for money at extra rates.—Boston Journal.

The Cleveland Herald says, "One of the strong minded girls" from Illinois passed through that place one day last week Her costume was frock coat, pants, vest, boots, and a stand up collar, and a fashionable cap. Hearing that her father was after him, she took care for the east. Her name, she said, was Henry Davis.

Nathan Bishop Esq, has been re elected Superintendent of the public schools in Boston The Transcript says the experience of the past few years has abundantly shown the value of such an office, and that the city of Boston would have been better off to day by a hundred thousand dollars, had Mr Bishop held his present office since 1843, ten years ago

We have no doubt that the experience of Boston will be shared by every city having in its employ a superintendent, a man of practical views and of experience to look after the school property to aid the schools to be in frequent communication with the teachers, and especially to devote himself to all the pecuniary details and every day working interests of the schools With such an officer in active service the best learning and talent of the city for an examining committee, could be commanded by the city, without compensation

A late number of the New York Home Journal contains the following notice of the "taste for rural elegancies in that city

Country life within city reach, is growing in public esteem here as well as in Boston and Philadelphia Indeed the passion which now exists in the vicinity of New York for ornamental gardening cottage architecture and rural embellishment generally, is extraordinary It amounts to a rage in some neighborhoods This accounts for the heterogeneous collection of rural objects now daily exposed for sale in Wall street, to tempt passe owners to buy and take home with them in the afternoon Frequently one may see between Trinity Church and the Custom House, Shanghai chickens, Newfoundland dogs Shetland ponies, birds, trees, pigeons and goats, roots shrubs, bulbs and seeds, garden chairs miniature hot-houses, and newly invented implements, all displayed on the side walk Those, with the usual throng of apple women, cake dealers, stock-brokers, and express men, render the upper part of Wall street almost impassable The taste for rural elegance is one of which every one must approve, and by which the whole country should be pervaded

A number of gentlemen in Edinburg, Lagrecently undertook to ascertain the amount of Sunday liquor traffic in that city On the Sabbath they took for their start, they found 42 of the 164 licensed houses open The visitors were, 22,202 men 11 931 women, 1631 children under 14 years of age, and 3032 children under eight years of age Total amount during the day, 41,736

The wife of Mr Matthew Tuck, of Farmington, Me, gave birth to three smart boys on the 6th inst, weighing seven pounds each, and the mother and children are doing well.

PROFESSOR ALEX C BARRY'S

TRICOPHEROUS, or Medicated Compound,

FOR beautifying improving and preserving the Hair curing cuts bruises burns stings rheumatism and all irritations of the skin A preparation for the sale of which amounts to one million of bottles annually will lead them to need no advertisement but as the thousands who purchase use and approve of it have probably no idea of the enormous extent of the business done by Professor Barry he gives herewith a plain statement of facts derived from his books and with them tenders his earnest and hearty thanks to his innumerable patrons

Professor Barry's accounts of sales for the year 1852 show that during that year about 100 000 bottles of his Tricopherous were dispensed and that the cash product of this immense sale was nearly $100 000

This plain unvarnished tale is a better commentary on the value of the article than any thing its inventor could say If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy for cuts bruises burns skin diseases &c—it would not of course be so constantly in demand The wealthy portion of the public would buy it at any price, but Professor Barry has reduced it to a figure so low that the poorest can avail themselves of its benefits

Sold in large bottles [price 25 cents] at wholesale and retail at the manufactory and depot 137 Broadway New York and by the principal merchants and druggists throughout the United States and Canada Mexico, West Indies Great Britain France &c

New York and California STEAMSHIP LINE

Through to San Francisco,

VIA ASPINWALL AND PANAMA.

THE Steamers composing this Line are as follows:

Plying between Panama and San Francisco.

WINFIELD SCOTT, 2,000 tons, Edward Dunn, Commander.

CORTES, 1,800 tons, Thos B Cropper Commander,

Plying between New York and Aspinwall

UNION, 1500 tons, Richard Adams, Commander,

Plying between New Orleans and Aspinwall

UNITED STATES 1,500 tons, Wm C Berry, Commander

The Union will be despatched from New York, on the 5th of each month, at 3 P M, direct for Aspinwall When that day falls on Sunday, the succeeding Monday.

The United States from New Orleans on the 7th of each month, direct for Aspinwall.

The departure from San Francisco will be on the 1st of every month

These steamers will land their passengers on Railroad Wharf, at Aspinwall, free of expense, where cars are ready to receive them and by which proceed to Gorgona, 22 miles, and from thence the travel is by mules or on foot to Panama, where one of the Company's splendid steamers is always in readiness to receive the passengers, and leave at once for San Francisco, stopping only at Acapulco for fresh supplies The transit of the Isthmus is at the passenger's expense, which varies from $10 to $25, dependant upon whether passengers walk or ride from Gorgona, and weight of baggage

These steamships are all new were built in New York with special reference to the trade, are thoroughly ventilated and commanded by men of long experience Each steamer carries an experienced physician

DR. MORSE'S

INVIGORATING CORDIAL!

FOR GENITAL DEBILITY, IMPOTENCY, INCONTINENCE OR NOCTURNAL EMISSIONS, &c. The astonishing success which has attended this invaluable medicine, for Loss of Muscular Energy, Physical Lassitude and General Prostration, or any of the consequences of youthful indiscretion, or indulgence of the passions in riper years, renders it the most valuable preparation ever discovered. In fact as a remedy for the above complaints it stands unrivalled and alone. There is no other reliable remedy or any that has hitherto fully received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested and its virtues proclaimed by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS HEAD and MIND COMPLAINTS—the mental physic so long sought for and never before found; the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of Self Destruction, fear of Insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Sensual Excesses or evil practices. It has been used by some that these disorders and emissions &c. were incurable. This however is not the fact.

DR. MORSE'S INVIGORATING CORDIAL has, and is constantly curing these complaints, relieving the mental and bodily incapacity of the unfortunate sufferer. In the following testimony of the names received will conclusively show.

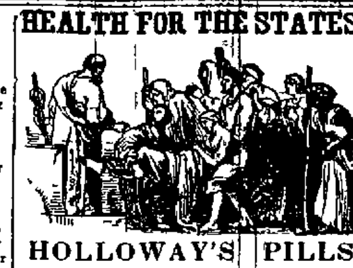
HEALTH FOR THE STATES!



HOLLOWAY'S PILLS.

EXTRAORDINARY CURE OF LOSS OF HEALTH, DISORDERED STOMACH, INDIGESTION, AND DETERMINATION OF BLOOD TO THE HEAD.

Extract of a Letter from Mr. John Lloyd, of Erw Wen, near Harlech, Merionethshire.

To Professor HOLLOWAY,

SIR,—I avail myself of the first opportunity of informing you that for a very long period I was afflicted with a dangerous giddiness and frequent swimmings in the head, attended by loss of appetite, disordered stomach, and generally impaired health. Every means had failed to give me any permanent relief, and at length it became so alarming that I was really afraid of going about without an attendant. In this melancholy condition I waited personally upon Mr. Hughes, Chemist, Harlech, for the purpose of consulting him as to what I had better do; he kindly recommended your Pills; I tried them without delay, and after taking them for a short time I am happy to bear testimony to their wonderful efficacy. I am now restored to perfect health, and enabled to resume my usual duties. You are at liberty to publish this letter in any way you may think proper.

I am, sir, your obedient servant,

(Signed) JOHN LLOYD.

June 6, 1852.

MIRACULOUS CURE OF DROPSY.

Extract of a Letter from Edward Rowley, Esq., of India Walk, Tobago, dated April 8th, 1852.

To Professor HOLLOWAY,

Dear Sir,—I deem it a duty I owe to you and the public at large to inform you of a most miraculous recovery from that dreadful disease, DROPSY, and which under God was effected by your invaluable Pills. I was tapped five times within eight months, and skilfully treated by two medical practitioners, but could not get cured, until I had recourse to your remedy, and notwithstanding all I had undergone, this miraculous medicine cured me in the course of six weeks.

(Signed) EDWARD ROWLEY.

INFALLIBLE CURE OF A STOMACH COMPLAINT, WITH INDIGESTION & VIOLENT HEADACHES.

Extract of a Letter from Mr. S. Gowen, Chemist, of Clifton, near Bristol, dated July 14th, 1852.

To Professor HOLLOWAY,

Dear Sir,—I am requested by a lady named Thomas, just arrived from the West Indies, to acquaint you that for a period of eight years herself and family suffered from continual bad health, arising from disorders of the Liver and Stomach, Indigestion, loss of Appetite, violent Headaches, pains in the side, weakness and general debility, for which she consulted the most eminent men in the colony, but without any beneficial result; at last she had recourse to your invaluable Pills, which in a very short time effected so great a change for the better, that she continued them, and the whole family were restored to health and strength. Further, she desires me to say, that she has witnessed their extraordinary virtues in those complaints incidental to children, particularly in cases of Measles and Scarlatina, having effected positive cures of these diseases with no other remedy.

(Signed) S. GOWEN.

These celebrated Pills are wonderfully efficacious in the following complaints:

Ague	Fevers of all	Scrofula or King's
Asthma	kinds	Evil
Bilious Complaints	Fits	Sore Throats
Blotches on the	Gout	Stone and Gravel

Patent Office under the Act of 1837) determined to present advantages in applying for patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty as paid back by others) will be remitted by him in case of failure to obtain a patent and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings for procuring patents in this and foreign countries, prepared and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents.

Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. H. EDDY, Solicitor of Patents.

During the time I occupied the Office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, did business at the Patent Office as Solicitor of Patents. There were few, if any, persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

DR. POMROY'S

Ophthalmic Ointment,

OR

EYE SALVE.

For the various diseases of the eyes and eyelids, nothing has ever been discovered equal to this mollient. All those painful and unsightly diseases to which the eye is subject yield to the effective ingredients of which it is compounded. Granulation of the Lids, Inflammation and Ulceration of the Lachrymal Glands, Humors, Sties, Weakness of the eyes, Watery eyes, Rheum, whether acute or chronic, are entirely cured by it.

After a few applications the fever and soreness are removed, the swelling subsides, a fresh and healthy appearance succeeds the inflamed and irritated appearance, the crusts caused by the discharges of the diseased surface falls off, the strength, lustre and beauty are restored.
